Sponsoring the 2013 Annual Debian Conference

Dear SP_first SP_last,

I am writing on behalf of the organising committee of the 13th annual Debian developers' conference, "DebConf13". We would like to invite you to consider the sponsorship opportunities available for this major Free Software event.

DebConf is the Debian Project's developer conference. In addition to a full schedule of technical, social and policy talks, DebConf provides an opportunity for developers, contributors and other interested people to meet in person and work together intensely. It has taken place annually since 2000 in locations as varied as Scotland, Argentina, and Bosnia and Herzegovina. In August 2013, Debconf will be held for the first time in Switzerland, at 'Le Camp' in Vaumarcus.

DebConf has a close association with the academic community from many universities in Europe, USA, and Latin America, since many contributors who volunteer their time to Debian are based in universities. The global impact of the event has risen over the years thanks to continuous support from sponsors such as HP, Google, Canonical, Intel, ARM, Telefonica, O'Reilly and Nokia.

We would be very grateful if you could find time to talk to us, so that we could explain in detail the advantages and benefits that come from supporting the event.

I have attached a document with more information on DebConf and on sponsorship opportunities for this year's event. Please don't hesitate to get in touch with me if you have any questions.

Yours sincerely,

Sender_first Sender_last
on behalf of the DebConf13 organisation team
