NAME
w3mman − an interface to the on-line reference manuals via w3m(1)

SYNOPSIS
w3mman [**−M** *path*] [*section*] [*page*]
w3mman [**−M** *path*] **−k** *keyword*
w3mman **−l** *file*

DESCRIPTION
w3mman is a Perl script that uses **w3m**(1) to serve as a pager for on-line reference manuals.

OPTIONS
A summary of options is included below.

−M *path*
Specify *path* as MANPATH.

−k *keyword*
Specify *keyword*.

−l *file*   Specify a *file*.

ENVIRONMENT
Two variables are available for debugging.

W3MMAN_W3M
If W3MMAN_W3M is set, its value is used instead of @W3M@.

W3MMAN_MAN
If W3MMAN_MAN is set, its value is used instead of @MAN@.

FILES
@libexecdir@/@PACKAGE@/cgi-bin/w3mman2html.cgi
manual page to HTML convertor.

SEE ALSO
man(1), **w3m**(1).
