

Dears,

**These are the RIB production upgrades of the next weeks:**

**S1 => S1-CRX    S1/R2 => S1/R2-CRX    S1/R4 => S1/R4-CRX**

All operators K-PLUS, K-FAST and SUPER complete with S1 card will receive the S1-CRX. This means that radio receiver will be included in all products.

#### **JOLLYs Electrobrake**

All JOLLYs have a new electrobrake more resistant to electric shocks (up to 450V). We have assigned a new silver color to its new bobine.

#### **RAPID BOOMS with LED - now available**

3-4m are suitable for RAPID S and RAPID N

5m is suitable for RAPID N only.

You can download its manual from here: [http://www.ribind.it/pdf/files/PARK\\_LIGHT.pdf](http://www.ribind.it/pdf/files/PARK_LIGHT.pdf)

#### **DUO CARD**

This new accessory (code ACG8010) has been designed to facilitate the work of installers which must allow the customer to be able to manage and ensure the safety of two sliding gates or barriers at the same time.

DUO CARD can be connected to the NC contacts of safety edges, stop button and photocells and to the NO contacts open, close, step-by-step buttons and the command given by a radio receiver.

DUO CARD can be connected to control units with power supply for accessories 12Vdc or 24Vdc.

It is therefore compatible with the RIB control panels K2007, KS 24, S1, PARK 230V and PARK 24V.

It has a plastic container and a double-sided adhesive which permit to apply it inside the control board box.

The manual is downloadable here: <http://www.ribind.it/pdf/files/duocard.pdf>

#### **DUKE 24V and T2 24V D CRX**

AA10936 DUKE 24V 110°
